## Career Objective

Motivated and detail-oriented Web Developer with a strong foundation in modern web technologies, specializing in responsive design and interactive user experiences. Seeking an internship or entry-level opportunity in Singapore to apply technical expertise, contribute to real-world projects, and grow within a dynamic and collaborative development team.

## Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Material UI, Responsive Web Design

Backend: Node.js, Express.js, MongoDB, RESTful APIs, Mongoose, JWT Authentication

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Figma

Additional Skills: API Integration, UI/UX Collaboration, Debugging & Optimization

## Education

**Academies Australasia College — Diploma in Information Technology**

📅 Feb 2023 – Feb 2024

**Academies Australasia College — Advanced Diploma in Information Technology**

📅 Mar 2024 – Mar 2025

**Coventry University — Bachelor of Science (Hons) in Computing Science (In Progress)**

📅 April 2025 – July 2026

## Projects

### **Agency.ai — <https://agency-ai.vercel.app>**

Tech Stack: React.js, Tailwind CSS, React Spring, Node.js, Express.js, MongoDB

- Designed and developed a fully responsive digital agency website with modern UI and smooth animations.
- Implemented dark/light theme switching with persistent state using localStorage.
- Built reusable React components (Navbar, Hero, Services, Contact) for modular design and scalability.
- Integrated scroll-based animations and transitions for improved user engagement.
- Deployed on Vercel, optimized for mobile and accessibility with fast-loading assets.

### **Passop.in — <https://passop-in.vercel.app>**

Tech Stack: React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication

- Created a secure password manager web app for encrypted credential storage.
- Developed backend APIs with Express.js and JWT authentication for user verification.
- Managed CRUD operations and data persistence with MongoDB (Atlas).
- Ensured responsive UI and client-side validation for smooth user experience.
- Deployed via Vercel for stable cloud-based access and performance reliability.
